

Monday January 31st, 2022

To: Dec-Tec™ and RoofingSeries™ Customers

Subject: Price Increase Effective March 1st, 2022

Skyline Building Systems Inc., dba Dec-Tec™ and RoofingSeries™, would like to thank you for your patience, understanding and continued support during these unprecedented times.

It is always our goal to maintain our pricing for as long as possible, while also working hard to maintain healthy inventory levels against market demand. Since October of 2021 we have received significant price increases on all price page inventory items and can no longer maintain our pricing as it stands.

We must announce a price increase, that is as follows, effective March 1st 2022:

- 20% on all RoofingSeries™ PVC Membranes
- 10% on all Mule-Hide EPDM Membranes
- 15% on all Dec-Tec™ Membranes and Dec-Flashing
- 20% on all Dec-Tec™ Solvent Based Adhesives (SBA 100R & SBA 200VC)
- 10% on all other price page items
- Pricing for the Solid Grey and Beige 60 mil Membrane will become equal to Brick, Bronze, and Granite 60 mil pricing

We will be providing new price pages on and or before March 1st, 2022. With this news we are providing to you a month's notice.

We realize you may have questions or concerns and encourage you to forward them to myself for answers.

Respectfully,

Rocco Trentadue
