Subject: Price Increase on Residential Roofing Products

Dear Customer,

Please be advised that, effective **August 1st, 2022**, Building Products of Canada Corp. will be implementing a price increase of **7% to 10%** on all residential roofing products including perforated felt (RF404).

All orders shipped on or after **August 1st, 2022**, independently of the time of the order, will be invoiced at effective price list at time of shipment. We reserve the right to limit quantities on orders placed prior to the effective date of the price increase.

Due to continued raw material cost volatility, BP reserves the right to implement additional price increases, price adjustments, or an earlier implementation of this price increase in advance of this announced price increase.

Should you have any questions, please do not hesitate to contact your local Building Products of Canada Corp. sales representative.

We thank you for your continuous support and trust.
